

## SM Investments Corporation

**Composite Rating:** Unrated

**Bond/s:** SMPM 5.375 29

**Outlook:** Positive

### Fundamental View

- SMIC (SM Investments Corporation) is the obligor for your SMPM 29 bond. An obligor is the party (individual or entity) that has a legal or contractual obligation to another to make payments (principal and interest) on the bond to the bondholder.
- We continue to be optimistic about the growth of SM Investments Corporation (SMIC) given its net income growth of 9% year-on-year (YoY) in Q3 2024. Credit quality remains strong given its net debt to equity ratio of 53.84% along with its dominant market position in multiple sectors.

### Business Description

- SM Investments is a leading Philippine conglomerate that is invested in market-leading businesses in retail, banking, and property. It also invests in ventures that can capture high growth opportunities in the emerging Philippine economy.
- It has a stake of about 77.3% in SM Retail, 45.3% in BDO Unibank, 49.7% in SM Prime Holdings, and 22.5% in Chinabank. SM is considered the market leader in Philippine retailing given that it has the largest footprint of 3.3 million square meters (sq m) of gross selling area. BDO and Chinabank are considered the top 1 and 5 biggest banks, respectively, in terms of total assets.

### Risk & Catalysts

- 65% of SM Investments' revenues come from its retail segment. Any slowdown in consumer spending in the Philippines might negatively affect its earnings.
- There is a potential for growth in areas outside the National Capital Region (NCR) given that it is targeting to open up new malls outside Metro Manila. By 2028, it plans to have 14 new malls, most of which would be built outside NCR.
- Given the recent Reserve Requirement Ratio (RRR) cut and rate cuts by the Bangko Sentral ng Pilipinas (BSP), BDO is expected to expand its net interest margin, which would be credit positive for SMIC

## Key Metrics

Metric	FY2021	FY2022	FY2023
